

FB 200B

Battery powered
reversible vibratory plate

Available during Spring 2021

Emission free compaction of sand, gravel and rock fill.

All our machine models are versatile and easy to operate. They are also durable and reliable, which means lower operating and maintenance costs.

- The FB 200B is a unique product - a battery powered reversible plate for heavy duty use, built on a Swepac's patented technology.
- Operating time exceeds 2 hours thanks to the powerful 4.6 kWh Lithium-Ion battery.
- RFID key with dead-man-handle function.
- Bluetooth connection for reading of runtime and machine status via Swepac's Service-App.
- The fully covered machine with a robust frame protects the battery and motor from damage.
- Superior ergonomics with an efficiently de-vibrated handle (HAV <math><2.5 \text{ m/s}^2</math>) with forward/backward function and speed control.

Options

- Programable/individualised RFID-key.
- Handle heating.

TECHNICAL DATA SWEPAC FB 200B

Weight, net	220 kg
Base plate, width	450 mm
Height, max / min	1180 / 1000 mm
Length, max / min	1440 / 800 mm
Motor	Asynchronous motor
Motor output	2.8 kW
Type of battery	Lithium-Ion
Voltage	48 V
Energy content	4.6 kWh
Centrifugal force	32 kN
Frequency	83 Hz
Working speed	0-25 m/min
Hand/arm vibrations HAV according to ISO 5349 on gravel surface	<math><2.5 \text{ m/s}^2</math>
Guaranteed sound-power level, LWA	104 dB(A)
Sound pressure level (at operator's ear), OP	90 dB(A)

Part number

306100 FR 200B incl battery and charger.

Swepac is Sweden's leading manufacturer of soil compactors. The company has a wide range of products, with different motor options and a variety of sizes for every application. Swepac is certified for quality and environmental management under ISO 9001 and 14001, and our machines are Eurotest-certified by SMP Swedish Machinery Testing Institute. You will find detailed information about the company and our products on our website, www.swepac.com. We reserve the right to make changes in technical specifications without prior notice.
